

Alberta Public Library Administrators' Council

MEMBERSHIP INVOICE 2018

An Invitation to join APLAC –The Alberta Public Library Administrators' Council

Who are we?

The Alberta Public Library Administrators' Council is open to any manager of an Alberta public library. APLAC welcomes administrators with library degrees and those with other qualifications.

What do we do?

Membership in APLAC provides a unique networking and information sharing opportunity. The Council's objectives include:

- addressing practical issues affecting the management and provision of public library services in Alberta;
- serving as a forum for discussion and exchange of information on current public library developments, emerging issues, and projects of relevance to Alberta public libraries;
- addressing the interests and concerns of public libraries through collaboration with other library organizations;
- undertaking specific projects to ensure that programs and resources remain in existence for Albertans;
- engaging in two-way feedback with appropriate provincial and federal government departments regarding information affecting public libraries and library services.

What's in it for you?

Membership provides you with a forum where you can communicate with other administrators facing similar challenges, no matter where they are, or how big they are. It also provides a channel through which issues unique to public libraries can be voiced in the larger Alberta library community.

Three times a year you will have the opportunity to meet with colleagues. Our meetings typically involve:

- discussion about topics common to us all, which may sometimes result in further action;
- a series of round robins where we share what's happening in our own libraries;
- guest speakers who bring us up-to-date on current Alberta library issues.

APLAC has a listserv through which members can communicate, conduct polls and help each other.

Want more information? Want to get involved? Here's what you can do:

Contact the current Chair or the Membership Coordinator for APLAC.
